

The EUROPEAN SUPERVISOR EDUCATION INITIATIVE (ESE)

presents the seminar on

“Interest Rate Risk and Asset-Liability Management in Banks”

hosted by: De Nederlandsche Bank

Date: 27 - 29 June 2018

Venue: Amsterdam

Seminar code: 3008 0581

OBJECTIVES

General Background

The seminar aims at giving deep insights into all aspects of interest rate risk management both from a theoretical and practical perspective. Corresponding aspects of the new Basel III framework (e.g. pricing for liquidity/setting up an adequate FTP-system, dealing with interest rate risk model risk, etc.) are fully covered.

Learning methods include presentations on theoretical basics, computer-supported live-simulations, discussions with experts and case studies on interest rate risk and asset-liability management (ALM). Market professionals from banks will present their perspective and stand ready for an exchange of views. Experts from an NCA and Erste Bank der Oesterreichischen Sparkassen AG will speak on regulatory experiences and developments relating to the Basel III framework.

Participants will have a chance to familiarize themselves with best practice models, discuss different approaches and share their experiences.

The language during the seminar will be English.

Speakers

In this seminar, representatives of the consulting company zeb will present the theoretical framework as well as experiences from a practitioner's point of view. Participants will be invited in several case studies (laptops will be provided by the organizer). In addition, also regulatory practice and implications on interest rate risk and asset liability management will be discussed with the experts.

EUROPEAN SUPERVISOR EDUCATION INITIATIVE

About ESE

The European Supervisor Education Initiative (ESE) is an alliance of central banks and supervisory authorities in Europe with the objective to qualify financial supervisors in Europe. Its members are Bank of Slovenia, Banque centrale du Luxembourg, Czech National Bank, De Nederlandsche Bank, Deutsche Bundesbank, German Federal Financial Supervisory Authority and Oesterreichische Nationalbank.

ESE is committed to high level training based on uniform standards to enhance financial supervisors' knowledge and skills and to promote a common European supervisory culture and practice. The initiative offers a modular seminar programme for banking, insurance and securities and markets supervisors, financial stability analysts and economists from central banks and supervisory authorities in Europe.

ESE is always open to new members or cooperations. Any contribution by European central banks, supervisory authorities or other institutions in the field of financial supervision sharing the idea that training is crucial to the success of financial supervision is highly appreciated.
